PROFILE

Oracle Cloud Architect with **11+ years of experience** across Oracle Cloud Infrastructure, Oracle Fusion, EBS, OIC and Autonomous Database, from Apps DBA to cloud architecture and practice leadership.

Currently **Manager – Cloud Ops at Automus Consulting**, running the Oracle CloudOps practice for **15+ clients** across implementation and managed-support engagements, covering the full OCI platform: landing zones, compute and storage, hybrid networking, databases, identity and security, observability, DevOps, FinOps and disaster recovery.

Proven in **on-prem-to-OCI lift-and-shift migrations** of Oracle EBS and Database, using Oracle EBS Cloud Manager and OCI Storage Gateway, with EBS R12.2.10 and Database 19c upgrades. **25 Oracle certifications**, including OCI Architect, Security, Observability and Generative AI Professional.

EXPERIENCE

Automus Consulting Pvt Ltd · Pune

Aug 2022 – Present

Manager – Cloud Ops (Oracle CloudOps Practice)

Sep 2026 – Present

PRACTICE & DELIVERY LEADERSHIP

- Lead the Oracle CloudOps practice: OCI and Oracle Fusion delivery for **15+ clients** across implementation and managed-support engagements.
- Drive the practice operating model: Documentation & Tooling Management Standard, provisioning and reconciliation runbooks, RCA and handover documentation, Git-based CloudOps repository, FreshService ITSM and Smartsheet tracking.
- Own client-facing architecture reviews, security questionnaires and status/roadmap reporting.

PLATFORM ARCHITECTURE

- Build **OCI landing zones** across client tenancies to a standard best-practice blueprint: environment-first compartment hierarchy (prod/non-prod → app/db) or a flexible hierarchy based on client requirements; IAM, network and security baselines; codified in **Terraform (HCL) and YAML** and deployed through **OCI Resource Manager**, with reusable stacks for OIC Gen3 and ATP environments.
- **Compute and storage**: run workloads on flexible and Ampere A1 shapes with instance pools, autoscaling and fault-domain placement; Block, Object, File and Archive Storage with backup and lifecycle policies.
- **Networking**: hub-and-spoke VCNs with DRG, Site-to-Site IPSec VPN and FastConnect to on-prem; load balancers and NLBs, private DNS and traffic steering; routing troubleshooting with Network Command Center.
- **Databases**: administer Autonomous AI Database (serverless and dedicated) and Base Database Service; configure Autonomous Data Guard, cross-region DR, Recovery Service backups and Data Safe assessments.
- Provision and administer Oracle Fusion SaaS (ERP, WMS, FAW, EPM), OIC Gen3, Visual Builder Studio, APEX and ATP.

SECURITY & GOVERNANCE

- **Identity and security**: Identity Domains with SAML 2.0 SSO (Okta, Microsoft Entra ID) and SCIM user lifecycle; Vault and KMS, Certificates and Bastion; posture management with Cloud Guard, Security Zones, Vulnerability Scanning and WAF.
- Architected **API security** for VBCS apps: API Gateway with JWT authorizer (IDCS JWKS) in front of ORDS on private-subnet ATP, OAuth 2.0 client credentials, and OCI Vault secrets read from PL/SQL via resource principals.
- **Governance and FinOps**: tag namespaces and cost-tracking tags, quota policies, budgets with alert rules, Cost Analysis reports, Resource Scheduler and Cloud Advisor across client tenancies; Terraform drift detection and reconciliation.

OPERATIONS, DEVOPS & DR

- **Observability**: Monitoring alarms, Notifications, Events and Connector Hub routing to email and Slack; Logging, Audit and Log Analytics; OS Management Hub patching.
- **DevOps and cloud-native**: Terraform and Resource Manager stacks, OCI DevOps pipelines, Container Instances, OCIR, Functions and API Gateway.
- **DR and migration**: Full Stack Disaster Recovery plans; Database Migration and ZDM for Oracle database moves.
- Architected OCI hosting for **AskFAiS, an internal RAG-based AI assistant**: container images built and pushed to a private OCI Container Registry (OCIR), run on Ampere A1 Container Instances behind a private load balancer, with registry access through a Service Gateway; deployed as a Resource Manager Terraform stack.

Accenture Solutions Pvt Ltd

Sep 2019 – Aug 2022

Team Lead (Oracle Cloud Infrastructure & Oracle Apps DBA)

Feb 2021 – Aug 2022

Senior Software Engineer (Oracle Apps DBA)

Sep 2019 – Feb 2021

- **On-prem → OCI EBS lift-and-shift (2022):** upgraded Oracle EBS to **R12.2.10** and Database to **19c**, then migrated EBS to OCI with **Oracle EBS Cloud Manager** across TEST and PROD cycles.
- **On-prem → OCI database migrations:** moved an Oracle Database to OCI using **OCI Storage Gateway**; upgraded another to 19c with an Oracle Linux upgrade and migrated it to OCI (Jan 2021).
- Managed OCI infrastructure for multiple clients with Terraform, Resource Manager and OCI CLI.
- Built an **IDCS password-expiry notification tool** (REST APIs + Shell) with logging and Git-based deployment; automated Oracle SaaS/PaaS table operations with shell scripts.
- Delivered L2/L3 support for multiple clients across Database, EBS, WebLogic, OIC, ORDS and APEX; patching (ADOP, OPatch, WebLogic BSU) and cloning on-prem and on OCI.

Atul Ltd · Valsad, Gujarat

Jun 2015 – Sep 2019

Assistant Manager – Oracle Apps DBA*Deputed to Raychem RPG, Mumbai (Dec 2016 – Sep 2019)*

- Upgraded Oracle EBS **R12.1.1 → R12.2.5** at Raychem RPG (Jan 2017); enabled online patching (ADOP) and built the fallback strategy.
- Automated test/dev cloning with Rapid Clone and a standby database: **zero manual steps, clone time cut to 60 minutes** including the dual file system.
- Ran EBS 12.2.5 disaster-recovery tests and HA/DR sync; built RMAN backup automation and integrated Tivoli for tape backups.
- Deployed Oracle EBS mobile apps (Approvals, Inventory, Procurement, Discrete Production Supervisor), configured Integrated SOA Gateway REST services and enabled TLS on EBS R12.2.
- Built an automated daily DBA health report for production covering space, AWR, CPU, backups, alert log, DR sync and workflow status (2016).

CORE SKILLS

Compute & Storage	Flexible and Ampere A1 shapes · Instance pools and autoscaling · Availability and fault domains · Block Volume · Object Storage · File Storage · Archive Storage · Storage Gateway
Networking	VCN, subnets, gateways, NSGs · DRG · Site-to-Site IPsec VPN · FastConnect · Load Balancer and NLB · Private DNS and resolvers · Traffic steering · Network Command Center
Identity & Security	Identity Domains · SAML 2.0 SSO (Okta, Entra ID) · SCIM · IAM policies, compartments, dynamic groups · Vault and KMS · Certificates · Bastion · Cloud Guard · Security Zones · WAF · Network Firewall · Vulnerability Scanning · Threat Intelligence · Security Advisor · Access Governance · Zero Trust Packet Routing · OAuth 2.0 / JWT
Observability	Monitoring and alarms · Notifications · Events · Logging and Audit · Connector Hub · Log Analytics · Stack Monitoring · OS Management Hub
Databases	Autonomous AI Database (ATP / ADW, serverless and dedicated) · Autonomous Data Guard · Base Database Service · Exadata Database Service · Recovery Service backups · Data Safe · EBS R12.1 / R12.2 · Database 11g–19c · RAC · Data Guard · ASM · RMAN · WebLogic
DevOps & Cloud-native	Terraform · Resource Manager · OCI CLI / SDK · Ansible · OCI DevOps (CI/CD) · Container Instances · Container Registry (OCIR) · Functions · API Gateway · Bash · PL/SQL · REST APIs · Git / GitHub
Oracle Applications & Integration	Fusion SaaS (ERP, WMS, FAW) · EPM · OIC Gen3 · Visual Builder and VB Studio · APEX · ORDS
Migration, DR & Governance	On-prem → OCI lift-and-shift · Oracle EBS Cloud Manager · Database Migration (DMS) · ZDM · Oracle Cloud Migrations · Full Stack Disaster Recovery · Tagging and cost-tracking tags · Quotas and limits · Budgets and Cost Analysis · Cloud Advisor · Resource Scheduler · Organization Management · OCI–Azure Interconnect · Oracle Cloud VMware Solution · FreshService ITSM · Runbooks and RCA
AI	OCI Generative AI · Generative AI Agents · Fusion AI Agent Studio · RAG

CERTIFICATIONS

25 Oracle certifications since 2016 · click a year to verify on Oracle CertView

Architecture & Security	OCI Architect Professional (2024 , 2023 , 2022 , 2021 , 2019) · OCI Security Professional (2024 , 2023) · OCI Observability Professional (2024) · OCI Architect Associate (2021 , 2019) · OCI Cloud Operations Associate (2019)
AI	OCI Generative AI Professional (2024) · Oracle Fusion AI Agent Studio Foundations Associate (2025) · OCI AI Foundations Associate (2023)
Database	Autonomous Database Cloud Professional (2023 , 2022) · Autonomous Database Cloud Specialist (2021 , 2019) · Exadata Database Machine X9M Implementation Specialist (2023) · Oracle Database 11g Administrator Certified Associate (2016)
Foundations & other	OCI Foundations Associate (2025 , 2024 , 2023 , 2021 , 2020) · Microsoft Certified: Azure Fundamentals

PROJECTS & COMMUNITY

- **Kladen** (personal project, in development, built with Claude Code and Claude Design): OCI-native visual infrastructure-as-code platform for managed service providers. Built so far: JSON model → OpenTofu codegen, runner loop, platform-owned HTTP state service, ATP metadata store and OCI Vault integration. Roadmap: visual canvas, guardrails, drift detection and RADAR (credential, certificate-expiry and Fusion security-audit monitoring).
- **cloudeexplorers.club**: founder and author of a technical blog on OCI, platform engineering and AI; self-hosted Ghost on OCI Ampere (ARM) with OCI Email Delivery and Cloudflare.
- **Multi-cloud lab**: Terraform-managed OCI, AWS, GCP and Azure nodes on a Tailscale mesh; remote state in OCI Object Storage; Caddy, n8n, Nextcloud.

EDUCATION

B.E. Computer Engineering , Watumull Institute, University of Mumbai	2011–2015
HSC (12th) , Moolji Jeta College, Jalgaon, Maharashtra State Board	2011
SSC (10th) , S. N. Zawar Vidyalaya, Paldhi, Maharashtra State Board	2009
